

THRASS PHONEME MACHINE CD PC

Sample Screens from the Phoneme Grid and Word Grid

T-58 If help is needed in identifying the phonemes (speech sounds) of English, especially for work with the THRASS 500 Workbook (T-56) and THRASS Spelling Tiles (T-57), the first section of the T-58 THRASS Phoneme Machine, the 'Phoneme Grid', is on the THRASS CATALOGUE 2006 DVD, as released in January 2006, or it is downloadable from the RESOURCES section of www.thrass.co.uk

The full version contains the much larger second section, the 'Word Grid' (for analysing the graphemes and synthesizing the phonemes in the five-hundred base words of English).
