

MOVE-A-LONG WITH SING-A-LONG, GAUTENG, SOUTH AFRICA, MAR 23, 2009 Gp2

Energetic and lively. Janine was enthusiastic and allowed us to simply relax and enjoy ourselves with the music. The actions were simple and fun and I know all learners will love the Sing-A-Long. A great experience which was thoroughly enjoyed!

Stunning! Janine made me see THRASS as a fun, exciting and life time experience. This is a course that every teacher should do!

Really worthwhile! I enjoyed it, it was so much fun! I can't wait to start teaching THRASS in a class!

I really enjoyed this workshop, it was fun. Janine is very active and really knows what she is doing. If we, as teachers, can be as active in teaching and singing THRASS as she is, we can make a difference in reading and writing in our school. Great lesson Janine! Thanks a lot!

This was a very fun and useful course. I can't wait to teach it in the classroom. It's great also to see how you can integrate literacy into the music class.

Fun and exciting! Janine is very enthusiastic and extremely passionate, a real joy to be taught by. This seems lots of fun and I can't wait to start singing and dancing in my class.

A wonderful course that helped consolidate the previous THRASS course. I can't wait to teach this in my classroom one day. It's exciting and educational at the same time. Janine is awesome, really passionate and dedicated.

The workshop is full of fun and provides one with a better understanding of THRASS. Using the Sing-A-long Book and CD is so interactive. It will provide learners an opportunity to learn in a fun way. It really has been a great experience.

Most enjoyable. Janine is great and all the songs are wonderful. The Sing-A-Long is the best part of THRASS. Well worth doing the course. This is a most valuable tool to use in the classroom. Having taught this in the Kwena Basin Farm Schools I have seen how well it works. The children love it, even Grade Ones learnt the songs and they could speak no English when we got there. Fantastic!

Lots of great fun, full of energy. It is Janine that keeps us all laughing. Really enjoyed the course, it was full of great ideas.

I loved it! It was such fun! I thought it was so valuable for the classroom. Janine is so enthusiastic and it rubbed off on all of us.

Superb. We did the THRASS course first, doing the Sing-A-Long course made it more meaningful because we were taught how to teach the children how to sound words and graphemes using song. What I liked more is that we were involved a lot, we were not just sitting but we were part of it. Janine was great. She really does the course so well. It was worthwhile to do it. Thanks for giving us this opportunity.

It was an energetic and fun workshop. The songs are well-thought out and relate to each consonant-grapheme and vowel-grapheme of THRASS. Very well presented!

I loved this workshop! It was so much fun! I learnt a lot – how to use the Sing-A-Long Book. Janine was a great host and I loved the dancing. Thanks so much! It was awesome.

It is a really inspiring, 'vibey' experience. I learnt a lot and it will help a lot when I get to teach THRASS in my own classroom. Janine gets us out of our seats and out of our shells and gets our bodies moving. It was great.

I enjoyed the Sing-A-Long course and I have found the fun in teaching children THRASS. By singing I found it will help children to better their pronunciation and increase their vocabulary.

Amazing. I really enjoyed it a lot. Janine is a great teacher with tons of enthusiasm and gets everyone up and interacting. Really enjoyed it.

Amazing. It was interactive and exciting. All the songs and dance moves were enjoyable and fun. It isn't only literacy based but incorporates physical movement as well, which is most important for learners. Janine is enthusiastic and keeps your attention from beginning to end. I had a super time.

Lots of fun and has motivated me to use THRASS Sing-A-Long in my classroom next year.

Brilliant. We loved dancing and joining in. The course is educational and enjoyable. Janine is an amazing teacher. I believe we will remember what Janine has taught us.

Very good and informative. Learnt a lot and had fun. Sing-A-Long be used for many fun learning opportunities.

Was fun and interactive. Fun to learn the actions and exciting to use with the children. Interesting way to teach the children phonics, sounds and vocabulary. Children will enjoy it more than sitting doing boring worksheets!

Amazing! The passion and enthusiasm was infectious and it was wonderful to be taught by the wonderful Janine Plunkett. I truly learnt a great deal and look forward to teaching these spectacular THRASS Sing-A-Long songs.

Lots of fun. It was really worthwhile. I can't wait to try it in the classroom.

This workshop was a stunning experience. Janine is absolutely dynamic, so much passion which flows out of her! I loved it and cannot wait to teach more THRASS songs in the classroom (and everywhere!) I'm so happy music is back in the classroom!

It was such a wonderful course – very enjoyable and well presented. I can't wait to try what I have learnt in the classroom.

Well presented – enjoyable – fun. I am motivated to teach my children the actions to these wonderful songs.

A lot of fun and interactive. Janine makes it worthwhile and her energy is great. Laughing always makes learning easier.

Fun and exciting. Interactive and Janine makes you want to dance and enjoy it.

I enjoyed the course thoroughly. Janine was most entertaining and presented the course brilliantly. I will definitely do this in my classroom one day! Great!

Excellent, well worth it! Very beneficial! Something all schools should teach in their classrooms! Thanks Janine – you are excellent at what you do!

I enjoyed it! It was very beneficial and has helped for when I need to teach it.

THRASS is very fun even for the adults to sing-along. Makes me so excited to teach in my own class next year.

Awesome! Full of fun. Wonderful teacher. Great way to help teach THRASS.
