

THRASS TWO-DAY CERTIFICATE, GABORONE, BOTSWANA, JAN 28 & 31, 2005

(Nursery School focus)

Firstly, a very big thankyou to you, Laola. This has to be one of the most exciting programmes I have ever come across. We will definitely be implementing this into our school and I cannot wait to get started. Look forward to seeing you here more often and learning more on THRASS!

Presented in an excellent way. The whole idea of THRASS is a nice playful way for children to learn.

An incredible system. A whole new outlook which we are excited about implementing. An enjoyable, interesting and well executed course. Thankyou.

Brilliant, interesting, inspiring – makes so much sense! Can't wait to start!

The THRASS way of teaching makes sense and it's wonderful that someone has seen the "big picture". I found the course very inspiring and interesting. Thankyou.

An outstanding programme – comprehensive, very well researched, fun, although a bit daunting. However, it makes so much sense. Great to see the big picture at last!

I found the course very interesting and enlightening with excellent resources and guidelines. I had looked at the manual previously and found it very daunting but the course certainly put things into perspective. I am looking forward to implementing it in the classroom as soon as possible as it's nice to have fun as well with the variety of games etc. I would like to thank all who are included.

A very impressive system. Opened my mind to a whole new world in the education field. There seems to be an explanation to everything. Excellent!

The course was great. At first I felt a little bewildered, but that was short-lived. I then saw the light. Very interesting, practical and logical. I thoroughly enjoyed the course. Thankyou.

This was very new and different to me, but I enjoyed it very much and am looking forward to start implementing it. It was much easier than expected. Thankyou.

This has opened a new world for me. It's a brilliant and easy way to teach and I found it very interesting, especially taking into consideration that I am Afrikaans spoken.

This method THRASS, I think it is very good to the children in the nursery school because they will be knowing lots of things when they go to primary schools.

I have found the THRASS course extremely interesting. A wonderful opportunity for the children of the future. Thankyou to our wonderful instructor.

Excellent. Cannot imagine using any other method of teaching. Very exciting. All schools need to discover THRASS. Like the way it includes thinking skills, spatial perception together with spelling, reading and handwriting. An empowering course.
