

THRASS TWO-DAY CERTIFICATE, KZN, SOUTH AFRICA, JAN 26-27, 2007

At last a logical and truthful way to teach reading and spelling. I can't wait to get started.

This has been a wonderful opportunity. The course was very informative and enlightening and I have learnt a great deal. It was structured in such a way that we could have a "hands on experience" with the material and get a good feel of what to do. I have benefited from this as an educator and I am positive that the learners are going to benefit. I am very keen to see the results.

Thank you so much! I really found the training very interesting and valuable. Laola is an excellent speaker and I am really excited about THRASS.

I taught THRASS during 2006 without having done the course. After today, I feel much clearer about the programme as well as more confident. Everything has just fallen into place. I can't wait to get back to school on Monday, as I have so much to teach my children.

A well thought out and explained training programme. The structured approach was appreciated.

Thank you for an informative course. I got clarity with regards to reading difficulties. Laola is very friendly and has an extensive knowledge of THRASS. I did find some sounds difficult to articulate, but Laola did help me. Thanks so much.

A very informative course. Being a first year teacher, I found the course beneficial, as it introduced me to THRASS, and how to use it in innovative ways in the classroom. It is important that educators know the correct way and guideline to teaching THRASS and I felt that this course has done that.

I thoroughly enjoyed it. After teaching THRASS for a year and never having done the course, I now believe that I am headed in the correct direction. Laola was excellent in answering all our various questions so thoroughly. Thank you very much.

Laola is a dynamic presenter. I feel far more confident now and have a better understanding of what THRASS is all about.

A very informative and helpful course. I enjoyed the presentation, but would have liked to spend a little more time on the last three stages. Thank you very much Laola.

It was most informative. The course was presented in a professional manner.

Very informative. Cleared up a lot of grey areas. Nice to have an animated presenter.

Thank you for a well-structured course.

Very interesting, but more time is needed. I am excited to be using this new concept in teaching handwriting, reading and spelling.

Well worthwhile and most interesting. A very sensible method of teaching these three important skills. Logical, sequential and constructive. Can't wait to see results. Thanks Laola. You were terrific!

Very thorough! Lots of information and everything taught in detail. Probably needed another day. Learnt a lot.

A very enlightening course and an amazing approach to learning to read, write and spell.

A very worthwhile course. I am very taken with the programme and I feel that the logical approach to learning will result in fewer children falling behind and requiring remedial lessons. I look forward to getting started! Thank you for your enthusiastic presentation.

Very interesting. I learnt a lot and now feel I can teach THRASS effectively. THRASS makes so much sense. I am looking forward to using it in the classroom.

I found the course very enlightening and dynamic. I am very enthusiastic to get going in my classroom. Our trainer was fantastic. A BIG thank you to her.
