

## **THRASS FOLLOW-UP COURSE, MPUMALANGA, SOUTH AFRICA, 27 MAY, 2009**

Absolutely fabulous and inspiring! Thank you so much for renewed motivation and guidance.

Made things much clearer and the scheme of work is great.

I'm quite impressed with the strides THRASS has taken. As a second language speaker it has helped me to be more confident personally, and as a teacher too. This time around, the course was more in depth and informative Bravo THRASS! Help our younger generation to appreciate language.

Wonderful experience reinforcing what we are presently doing and introducing us to new ideas, games, developments and video examples. Re-inspiring!

Great to have a follow-up and clarify any problems that I have come across! THRASS is awesome!

Very worthwhile. Thank you for clearing up some areas of confusion. I love teaching THRASS.

Learned lots more and lots of questions were answered. Can now go forward more confidently.

Informative. Good revision of previous knowledge. Expansion of ideas. Reinspired.

Great. Really good to be refreshed. If only we had more time to do more! But will try to do my best with what I have!

Great! Have been working with THRASS, with much enthusiasm, with learners experiencing difficulties, so this day was confirmation that I'm doing the right thing. Clarified the 'muddy bits'.

Great to have some further clarity but would love to spend even more time "THRASSing it out". Thanks for re-inspiring us and sharing some of your passion once again.

Very interesting, informative and funny. Looking forward to applying in a classroom environment. Personally I would like a more slower, in-depth workshop that caters for our slow learners or kids that have literacy learning difficulties. Thank you I enjoyed the workshop!

Awesome. Could do it all day! Great taking us all back and seeing it all in perspective. When not doing Gr 0 etc, one needs a reminder and refresher! We are re-inspired!

Great! Clarified grey areas and motivated new ideas and methods.

Excellent content for a follow-up course. Very helpful in answering troubling questions. Dynamic, motivating, inspiring! Lovely new ideas, relevant to the group of kids I teach.

Great follow-up. Cemented all I learnt on my first course!

Informative – helps build on ideas, clarifies catch-alls and consonant blends etc.

So, so brilliant as always. Never too late to learn at this stage – thank you very much!

Great to consolidate, revise and now inspired to reach even greater heights with THRASS.

A great course! We are all re-inspired to continue on the THRASS journey!

Great refresher. Very useful. Pleased to see my knowledge is not too stale!

Wonderful refresher workshop. Keep up the good work.

Thank you for your time and for personally answering our questions. I found it valuable. I sometimes can't understand why children spell words incorrectly and wonder how I could help them (while staying positive)! Today has taught me a lot in this regard. A lot of repeating, (videos I have seen and profilecard that was covered), but sometimes it is necessary to see and hear things again!

Fantastic to have a refresher course. Excellent to go over the basics of THRASS. Videos informative

Great, as always! Thanks.

Very informative. Gave me more new fresh ideas.

Brilliant beyond belief! Alan truly makes me so passionate about teaching and THRASS. I am so THRASS positive!

Refreshing and enjoyable. Cleared up some queries. Thank you very much!
