

THRASS FOLLOW-UP COURSE, NORTH WEST, SOUTH AFRICA, JUNE 20, 2009

It was most enjoyable. I now realise that this can also be introduced to older children and am inspired to begin.

Thank you Laola. The refresher course has allowed me to feel more confident. I enjoyed reviewing all the resources, in particular. I look forward to Monday when I can put things into practice – again!

Would have loved this course 6 months after initial training. There are so many things that I would have done differently after reflection today. Thank you Laola for a passionate, clear and enthusiastic presentation. Have learnt a lot!

The new ideas and reminder will keep me awake again. Thanks for the manner in which you present. Wonderful examples.

I will take some of the lovely ideas for Setswana.

Did the course a year ago and this time, the refresher was a reminder about just how good the material is and what the long term benefits are. Great course and got some new ideas and confidence on how to present the whole programme.
