THRASS will come in handy next year with the new children coming up. It was presented really well. It is a good way of getting it across to children.

After using some THRASS in school, didn't know there was so much more to the programme. Very interesting day, clearly explained.

The course has given structure to the teaching of THRASS in the classroom. Some good pointers and hands on teaching strategies. Well delivered at a good pace.

Good day, very informative.

I found this course really useful. This will really help students who struggle to spell words.

Very informative, enjoyable. Will use during the next school year.

I have enjoyed the course and found it very useful for the new group of pupils I will be working with. Also the raps and rhythms will be very useful for the PMLD pupils (their level).

Fantastic - A phonics bible!

Clear presentation with clear signposting to resources. Perhaps some group work and discussion as an activity would be useful.

Very good and informative. Interesting and lots of ideas to use.

Very informative and interesting, lots of resources available. I enjoyed the day and found it useful. Look forward to trying THRASS out in the new school year.

Enjoyable and informative. Delivery was vibrant, with humour and good pace. Good to refresh what I last did about 5 years ago!

Enjoyed the course although would have liked a longer time to look through the resources. It would also be good to have more hands on resources readily available to use on a daily basis.

Fantastic course, very motivating, excellent revision for literacy (for me) MFL teaching skills. Superb delivery and motivational skills!
