

## THRASS ONE-DAY FOUNDATION COURSE, ESSEX, APRIL 3, 2009

Superb! Very engaging, lively, great pace. Great modelling and possible activities for teachers. Professional and detailed tutor. Clearly presented through a variety of mediums.

Excellent. I have a better understanding on how THRASS can be delivered. Very enjoyable.

Excellent course, very informative and exciting. I have developed a clearer understanding of the programme especially the scheme of work which I can now put into practise.

Very interesting and engaging. Fantastic encouragement. Clearly presented and questions well answered.

Lively and energetic presentation. Hilary gave a lot of information in a creative way and gave a lot of useful vocabulary. Rock song at the end was great!

Delivery was very clear and was kept fun and interesting. Resources that were brought along were excellent and the ideas given were insightful. The overall course was excellent and very enjoyable. A shame it was only for one day!

Very enjoyable. Not too in depth but lots of information covered. Clearly explained concept of THRASS and how it works.

A very interesting day. Lots of information delivered in a great way.

Greatly informative, enthusiastically presented and very clearly instructed. Overall, very interesting stuff that I am looking forward to continuing in the school.

An interesting day and a comprehensive programme. I like the way that the different graphemes for each phoneme are grouped and that they're supported by a number of interactive resources. An informative and thought provoking day.

It was good to see a different approach and it may be useful with some of the pupils struggling with literacy. Trainer was excellent. The way phonemes were grouped was most useful.

Your enthusiasm for THRASS is infectious and I look forward to doing this with the children.

Really enjoyed the training and now have a much better understanding of THRASS.

Really enjoyable. I have a much better understanding of THRASS. Good combination of training styles.

Material was delivered in a clear and precise way. Clearly explained and broke down so material was easy to understand. Gave a clear understanding of what THRASS is about and how it works.

Enjoyed course: fun, interactive. Still have some difficulty with – 'Teacher to Circus' phoneme box. Is second time around for me, was very helpful and made a lot more sense!

A very good day.

Very interesting. Really enjoyed it. Found it helpful – as our children are mostly underachievers.

Great understanding of program. Well delivered! Fabulous fun. Lots of visual aid to support learning.
