

THRASS TWO-DAY CERTIFICATE, DAY 2, HAMPSHIRE, 2 NOV, 2009

A very well presented session full of very useful information. THRASS delivers a fundamental fun way for children to develop reading, writing and spelling skills.

Great coverage and good pace. Questions answered in detail with good teaching examples.

Good recap from Day 1 – set the scene and I needed the revision. Progression during the day was logical, well reasoned and explained clearly. I feel far more confident in explaining, to parents and governors, why we are using a different phonics scheme from other schools. I look forward to having some very successful pupils.

An informative course about how the language system works. Good teaching ideas and fun ways to deliver to the children. Good ideas/explanation of assessment opportunities.

This has given me a wider range of activities and ideas to ring the changes! Very useful to see where the children will be going to after they have left me and how the work done in the early stages supports later development. Thanks also for taking time to answer individual queries.

Explained very well, with good examples. Answered questions thoroughly – enjoyable!

New and useful information on use of THRASS.

Really good to go over things from my original training.

Another useful day. I particularly enjoyed the demonstration activities that can be used in class. Most useful part was the subject/background knowledge about the English language.

Helpful.

Detailed and helpful.

Good and useful. Very informative and helpful.

Good informative day. Very useful. Lots of new ideas. Good presentation.

Very informative. This will help me extend the level to which I can take the children. Assessment sheets – it would have been useful to have had the purpose of some of these explained in Session 2 so that I could have put them to use sooner.

Enjoyed this a lot. Explained many things. Feel more confident about passing THRASS onto the pupils.

Well presented, interesting course.

It was nice to have a refresher course after having done the two day course in 2004.

Interesting for when using THRASS.

I have done the two day training before (2005) and I have found this has really re-inforced what I learnt and helped to make it more relevant.

Really useful. Helpful in understanding why children miss vowels!

A thoroughly enjoyable and informative day. I have, yet again, learnt so much! Lots of ideas for good classroom practice underpinned with useful theory. Really pleased to have completed both days.
